Dear Dr. McAllister:

On behalf of the Winter Neuropeptide Conference, I wish to thank The Council for Tobacco Research-U.S.A., Inc. for their generous contribution in support of our 8th annual conference to be held in Breckenridge, Colorado in January, 1987. The understanding of neuropeptides has expanded greatly since our first conference in 1976. The use of neuropeptides and drugs engineered around concepts generated from basic science is still emerging. Your support is used to bring scientists on the frontier of their disciplines to share their most recent developments at our conference. Acknowledgement of your contribution will appear in the WNPC program. Also, each year the proceedings are published in the journal Peptides for consumption by the scientists unable to attend our meetings. Again, thank you for your generosity which provides invaluable support of our conference.
